^{*} Project Dashboard %Complete revised for Additional A/R Task Detail.

% COMPLETE AS OF - 5/1/2017

Overall Status for all top-level tasks, Critical Urgent and High gap resolution for all pillars/modules.

TOP PRIORITY RISKS

#99 - Resources for FY16/FY17 Year-End Close Affecting Remediation:

PROBABILITY: DEFINITE IMPACT: HIGH

Risk: Possible 6 week delay in closure of Remediation for Finance.

Insufficient resources in Finance ERP Support to provide production support and significant additional work for closing both FY16 & FY17. Resource constraints will impact Remediation Team, risking remediation task timeline. Remediation Team resources have been diverted to assist FY16 close on-site activities, general support assistance and participation in Common Process Development workshops. Resource drain will worsen as the FY17 year-end close deadline nears.

TOP PRIORITY ISSUES

#411 - Hyperion Decision - Budget Requirements for Hyperion Remain Unmet:

A decision is needed to either staff the Hyperion solution or opt for an alternate approach\tool to meet these requirements. Impacts Budget Development & Planning.

#412 - Online Admissions Application (OAA) - Citizenship, Residency & Phone Number:

-Blank citizenship status, Running Start programs want residency questions, Spokane wants phone number to be required, TCC has objections about this request.

#413 - Payroll Deduction Liability Account Changes Needed:

Need global college workgroup to establish new Payroll Deduction Liability Accounts.

#414 - Continued lack of FWL ERP Support Resource Impacting Remediation:

ERP Support has not hired a resource to support Faculty Workload. Project resource providing all support for FWL impacting Remediation. Most notably: FWL Routing for Contract Approval Multi-Meeting Pattern Fix for FWL Calculation Control Roll-Forward Fix These issues are on the critical path for closure of Remediation.
