New, Update or Sunset Review? Sunset

What is the business case for the policy/standard?

Material is no longer keeping up with current technology

What are the key objectives of the policy/standard?

Retire standards in favor of guidelines, move from framework specific to framework neutral

How does policy/standard promote or support alignment with strategies?

Increase capacity to manage and share information

What are the implementation considerations?

Communicate rescinded standards and promote Enterprise Architecture Handbook

How will we know if the policy is successful?

Widespread (degree of) adoption of WS-API and SFTP/FTP-S guidelines
